

From Gimpo International Airport (GMP) to Daejeon Convention Center (DCC)

There are two main ways to reach DCC from Gimpo International Airport. Method 1 is the easiest option.

Method 1 Gimpo International Airport → Airport Limousine Bus to Daejeon → Daejeon Convention Center

Limousine Bus

When you exit Gate 3 of the airport terminal, you will see bus stops outside on the ground floor. The cost of a ticket is around KRW 15,000. Buses come every 1 ~ 2 hours and the ride takes approximately two hours to arrive at Daejeon. The first bus is at 7:25 AM and the last bus leaves at 10:25 PM.

Get off at Daejeon Government Complex (Jeongbu Chongsa) and take a taxi to DCC. The distance is roughly 2 km and will cost no more than KRW 3,000.

To avoid any potential confusion with a taxi driver, we recommend you say “hello” in Korean when entering the taxi (Ann-youngha-say-oh) and then show them this note in Korean stating you wish to visit DCC.

기사님, 대전 컨벤션 센터로 가주세요.

**Please take me to the Daejeon Convention Center
located at 107, Expo-ro, Yuseong-gu.**

Method 2 Gimpo International Airport → AREX to Seoul Station → KTX train to Daejeon Station → Daejeon Convention Center

Gimpo International Airport → Seoul Station

Subway

Take an AREX (Airport Railroad Express) train at Gimpo International Airport Station across the street from the airport. The subway station is a hub with several subway lines so please confirm you are entering at the correct gate. AREX trains take 20 minutes, cost KRW 4,250 which includes a refundable KRW 500 for a single journey ticket, leave roughly every 7 minutes, have seats like traditional subways, and ride until the last stop (Seoul Station). First train leaves at 5:43 AM and last train leaves at 12:17 AM. Timetables and updated information are available at www.arex.or.kr

Seoul Station → Daejeon Station

Bullet train

Follow the crowds up 1 small escalator, 1 long escalator, scan your transit card, if you have a single journey ticket then refund it in the separate refund machine, 2 more escalators, and now you are in the west side of Seoul Station. Tickets for the KTX bullet trains can be purchased by tellers, by machine, or online at <http://www.letskorail.com/ebizbf/EbizBfTicketSearch.do> Online orders conducted in English must be claimed in person with your passport as identification before you ride the train. If you order your ticket via the English website but do not claim the ticket in person, your reservation is seen as unfulfilled and your seat could be resold to another customer. For train times please see the website link.

Standard seats cost KRW 24,000 and first class seats costs KRW 35,000 and are sometimes discounted. Travel time is roughly one hour depending on the number of stops in route. Tickets do occasionally sell out, but trains run every 10 to 20 minutes. Please see the website above for current timetables. Train types other than KTX exist but take two hours to travel to Daejeon and do not run as often.

Daejeon Station → Daejeon Convention Center

Taxi

We strongly recommend that you take a taxi to get to DCC upon your arrival at Daejeon Station. Once arriving at Daejeon Station, go out the front entrance (Exit 1) and get a taxi from the line of taxis waiting near the entrance. The distance is 8 km, driving time is around 20 minutes, and the fare is around KRW 8,000.

To avoid any potential confusion with a taxi driver, we recommend you say “hello” in Korean when entering the taxi (Ann-young-ha-say-oh) and then show them this note in Korean stating you wish to visit DCC.
